

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Refreshing Towel – Scented

Raw Material

Liquid:

Aqua, Alcohol Denat., PEG-40 Hydrogenated Castor Oil, Parfume, Sodium Hydroxide

Towel:

Krepp paper

Laminate:

Kraft, PE, Aluminium, Sorlyn

Packaging

The inner packaging is made of PE, PP or paper/board.

The outer packaging of unbleached, corrugated board.

Field of Application

Product to clean and refresh skin. For immediate and single use after opening.

No specific precautions are applicable.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC. For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects

Product

These products are approved for use in applications with direct skin contact according to EU Regulation No. 1223/2009 concerning cosmetic products.

Packaging

Polyethylene and polypropylene is manufactured from mineral oil or natural gas. The polymer simply consists of carbon and hydrogen. The corrugated board is to a large extent made out of recycled fibres and unbleached.

Product Safety

- The product fulfils the European Cosmetic Regulation 1223/2009.

Management of Used Products

Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Validity

This is a copy of a document issued 2018-06-14. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
