

Declaration of conformity -EN

As Silver kitchenware company, we declare that our cooking utensils, which are among our product groups, are produced in accordance with international food contact compliance regulations.

We declare that our products comply with the regulation 1935/2004 / EC on materials and articles in contact with food and with the requirements of the GMP regulation 2023/2006 EC.

Our products are tested in accordance with ISO4531: 2018 (Vitreous and porcelain enamels - Release from enamelled items in contact with food - Test methods and limits).

In our cast iron enamel and steel enamel products, there are no infiltrations such as Pb and Cd in the parts that come into contact with food.

The parts of our products that come into contact with food are subjected to migration tests by standards such as FDA and LFGB, and the analysis made by independent organizations has been analyzed and confirmed by third parties.

Appendix 1. Material information and conditions of use table

Food contact materials	Information on terms of use
The main material of the products is completely cast iron. The products are coated with double layers enamel. And also it is suitable for contact with food. The outer part of the products can be coated in various colors according to the demands. There are no filtrates such as Pb and Cd in the enamelled parts that come into contact with food.	Our products are not suitable for use in microwave and frequency heaters. It is suitable for use in ovens, induction furnaces, direct embers. The thermal shock resistance of the products is until 380 C and resistant to 5 cycles. Our products are enameled. It does not have thermoplastic and PTFE coating parts.

Appendix 2. Migration test

Volume to Surface ratio: 1000 ml / 6 dm²

3% acetic acid (w/v) in aqueous solution 95°C 2 hours (3rd migration)

Test Item		Result	Unit	Reporting limit	Limit
Aluminium	Al	620	(µg /L)	200	5.000
