

Declaration of Compliance (DoC) for food contact materials (FCM).

All FCM in Denmark must be accompanied by a DoC.

This template for DoC has been prepared by Hørkram Foodservice and covers finished FCM.

The template must be filled in by Hørkram's supplier of FCM.

Documentation for all matters stated in this document must be able to be submitted on request.

Hørkrams item number:

(To be filled in by Hørkram).

This document is filled in for each individual delivered item. If a DoC has not been completed for each item, Annex 1 must be completed.

Date of declaration: 1 JULY 2022

~~It is the supplier's responsibility to update the declaration when changes occur that are relevant to the finished FCM or at least every two years.~~

Name and address of Hørkram's supplier of FCM, who fills out this DoC.

Supplier's item number: _____ Name of FCM: CERAMIC

Description: CERAMIC TABLEWARE FOR FOOD SERVICE (lid, coffee pot, bowl, etc.)

What type of FCM is this (tick below):

- ☐ Paper and board
- ☐ Plastic and recycled plastic
- ☐ Foil of cellulose regenerates
- ☒ Ceramic and enameled objects, porcelain and faience as well as glassware
- ☐ Metal
- ☐ Other type; specify the type: _____

Is it a combination of materials specify which types: _____

What types of food is the product intended to come into contact with: ALL FOOD STUFFS

Are there restrictions on the use of the product? _____

Instructions for proper use: _____

Instructions for proper storage: _____

} SEE ATTACHED. (H:/CHROME/DOWNLOADS/
CARE-IN-USE-
PRESENTATION% 20
(2) ndc)

All FCM:

The points below are confirmed by marking in the box on the left.

☒ The product is in accordance with EU Regulations 1935/2004/EC¹ and 2023/2006/EC² and the Danish Executive Order no. 681 of 25/05/2020³ on food contact materials and on penal provisions for violation of related EU acts.

☒ Specify specifications for the use of the material or object, e.g.:

1. Time and temperature during processing and storage in contact with the food:

SEE ATTACHED.

2. Test information used to establish that the material or article complies with applicable requirements.

EXAMPLE ATTACHED

☒ Specify other specifications, e.g. whether the product is suitable for use in a freezer, dishwasher, oven, microwave, etc.

NOT FREEZER TO OVEN SAFE
NOT COOKWARE.

☒ The product contains dual use additives (additives subject to food-related restriction). Contamination of food additives is covered by the general requirements of Regulation 1935/2004. If the product contains dual use additives, the supplier must state on request the quantity transferred to the food.

In addition, the product meets the conditions filled out below.

The points below are confirmed by marking in the box on the left.

Paper and board:

☒ The product is produced without the use of per- and polyfluorinated alkylated substances (PFAS).

☐ If PFAS has been used in the production of the product, a functional barrier has been used, thus avoiding migration of the substances to the food. It must be possible to document this on request.

¹ Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, as amended.

² Commission Regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with food, as amended.

³ Executive Order no. 681 of 25/05/2020 on food contact materials and on penal provisions for infringement of related EU acts, as amended.

Plastic and recycled plastic:

- ☐ The product complies with EU Regulation 10/2011 / EC⁴.
- ☐ The product contains a functional plastic barrier. If a functional barrier is used in a multilayer material or a multi-layer article, it is confirmed that the material or article meets the requirements of Article 13, no. 2, 3 and 4, or Article 14, no. 2 and 3 of Regulation (EC) No 10/2011.
- ☐ The product contains substances with specific restrictions. The supplier must have adequate information on the substances or their degradation products used, for which restrictions and / or specifications are laid down in Annexes I and II to Regulation (EC) No 10/2011.
- ☐ The product contains fillers which are included in the positive list in Regulation 10/2011.
- ☐ The product is made from recycled plastic. In this case, the product complies with EU Regulation 282/2008 / EC⁵.

Foil of cellulose regenerates

- ☐ The product is made of foils of cellulose regenerates, as referred to in § 2, no. 1, letter c, in the Danish Executive Order no. 681 of 25/05/2020 on food contact materials and is in accordance with EU Regulation 10/2011 / EC.

Ceramic and enameled objects, porcelain and faience as well as glassware

- ☒ The product is manufactured in accordance with Council Directive 84/500/EEC⁶ and complies with the following limits:

Classification:	Pb	Cd
Category 1: Articles which cannot be filled and articles which can be filled, the internal depth of which, measured from the lowest point to the horizontal plane passing through the upper rim, does not exceed 25 mm.	0,8 mg/dm ²	0,07 mg/dm ²
Category 2: All other articles which can be filled.	4,0 mg/l	0,3 mg/l
Category 3: Cooking ware; packaging and storage vessels having a capacity of more than three litres.	1,5 mg/l	0,1 mg/l

⁴ Commission Regulation (EU) No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with food, as amended.

⁵ Commission Regulation (EC) No 282/2008 of 27 March 2008 on recycled plastic materials and articles intended to come into contact with foods and amending Regulation (EC) No 2023/2006, as amended.

⁶ COUNCIL DIRECTIVE 84/500/EEC of 15 October 1984 on the approximation of the laws of the Member States relating to ceramic articles intended to come into contact with foodstuffs, as amended.

Care In Use

CERAMICS

CHURCHILL

RECOMMENDATIONS TO HELP YOU TO PROTECT YOUR INVESTMENT IN CHURCHILL TABLEWARE.

CLEANING

- ✓ Upon delivery, inspect all items and wash twice before putting into service.
- ✓ It is important to follow manufacturers recommendations regarding quantity and type of detergent and rinse aids.
- ✓ Remove & rinse leftover food immediately after use.
- ✓ To avoid metal marking, use a plastic spatula to remove leftovers.
- ✓ Clean the dishwasher regularly to prevent limescale build up.
- ✓ Wash within 30-40 minutes of use.
- ✓ Allow items to air dry before stacking.
- ✓ Use a non abrasive pad when cleaning to remove stains.
- ✗ Do not put items decorated with metallics into the dishwasher.
- ✗ Do not put detergent directly onto dinnerware as this may result in damage.
- ✗ Do not mix cutlery and ceramics together when cleaning.

PREVENTING SCRATCHES & METAL MARKING

- ✓ When stacking, place plates centrally and do not push plates into a centre of a stack.
- ✓ Avoid exerting excessive pressure on the surface of the product. A lower grade cutlery will be softer and be more prone to leaving marks.
- ✓ Metal marks can usually be successfully removed by using proprietary products (in-line with manufacturing guidelines).
- ✗ Do not slide, always lift products.
- ✗ Do not put hot wet dishes into contact with aluminium surfaces.

STORAGE

- ✓ Ensure adequate storage space is provided.
- ✓ Store preferably on high-grade stainless steel shelves or shelf mats to avoid metal marking.
- ✓ Keep ceramics, metal and glassware separate.
- ✗ Do not stack hot wet ceramics.
- ✗ Do not stack items that were not designed to be stacked.
- ✗ Do not over stack, as the weight created by stacking too high will contribute to scratching and metal marking.
- ✗ Do not mix-stack e.g do not stack Churchill tableware with products from other suppliers, particularly if these items have an unglazed foot.

WARMING

CHURCHILL COOKWARE IS OVEN PROOF TO 180 DEGREES CELSIUS

- ✓ Warm gradually & evenly.
- ✗ Avoid excess temperature variations such as taking the tableware from the fridge directly to a hot oven.
- ✗ Do not place items decorated with metallics (gold, silver, bronze) in the microwave.

Exception(s) to Standard: **NONE**

This exception has been requested by the sample provider.

Minimum sample size 1

This report relates only to the sample(samples) tested. The sample provider is responsible for providing relevant and appropriate samples. The ware supplied and tested would PASS the limits for Lead and Cadmium with a confidence limit of 95%

TEST CONCLUSION: ☒ Pass

☐ Fail

☐ Beyond specification scope

End of Test Report

Metal

- ☐ Varnishes and surface treatment agents manufactured with bisphenol A comply with the requirements of Regulation 2018/213⁷ and Regulation (EU) No 10/2011 on plastic materials and articles intended for contact with food.

Additional information

--

The declaration has been prepared by Hørkram's supplier and is considered to be true at the time of issue. The Declaration of Compliance is indicative and valid for the product when used under normal and foreseeable conditions in accordance with the mentioned indicative contact, temperature, and time limits.

Filled in by (function, name, signature):

PAUL SCRAGG DIRECTOR

Mr. Perry

Annex 1:

[illegible]

⁷ Commission Regulation (EU) 2018/213 of 12 February 2018 on the use of bisphenol A in varnishes and coatings intended to come into contact with food and amending Regulation (EU) No 10/2011 as regards the use of that substance in plastic food contact materials as amended.
