

SIZE CHART

The measurements listed by us refer to the wearer (person) and not to the measurements of the respective garment! For example, if the chest measurement is 101 - 104 cm, it means that this product is suitable for a person with this chest measurement. It does not mean that the product itself has these measurements. If your measurements are somewhere between two sizes - we recommend ordering the larger size.

Some Karlowsky® trousers come with 3 different inside leg lengths for an optimal fit. Look for the size suffixes **s (short) & l (long)** when making your selection.

All other Karlowsky® trousers are manufactured with a uniform inner leg length of 81 cm. Therefore, for these trousers, the inside leg measurement in the "Normal sizes" table applies.

MEASUREMENTS

You should be only dressed with underwear or very tight-fitting clothes. Shoes should not be worn. Since these are purely body measurements, they must be measured directly on the body. The necessary allowances for comfort or functionality are automatically taken into account by us in the development of the products.
